

Universal Design for Learning IN THE CLASSROOM

Universal Design for Learning (UDL) is a framework to improve and optimize teaching and learning for all people based on scientific insights into how humans learn. It aims to address a wide variety of learning needs and abilities, reduce learning barriers or obstacles, and allow students to engage with learning in a way that most benefits them.

UDL Framework

Acknowledges

Learner variability

Promotes

- Engagement
- Representation
- Action
- Expression

Engaging and relevant lessons

Accessible physical infrastructure

Learner-centered environment

Inclusive culture

Choice-based assessment

Varied and accessible learning resources
